V. BEST VALUE SELECTION PROCEDURES

First, all proposals will be reviewed to determine whether they meet the format requirements and standards specified in this request for proposals.

The purpose of this Request for Proposals is to enable the District to select the Contractor that submitted the proposal that is the best value to the District for the Project as required by Education Code section 17406. The term “best value” as used in this RFP is defined in Education Code section 17400, and is inclusive of a competitive procurement process whereby the Contractor is selected on the basis of objective criteria for evaluating qualifications with the resulting selection representing the best combination of price and qualifications. 100 points are available for the price portion of the proposal, and 100 points are available for the qualifications portion of the proposal, for a total of 200 available points.

The District will use the selection process outlined below, which conforms to Education Code section 17406 and ensures that the best value selection by the District is conducted in a fair and impartial manner. A review and selection committee composed of key District officials and consultants will review and evaluate all proposals.

Part 1: Qualifications Proposal

Proposals will be opened privately to ensure confidentiality and to avoid disclosure of the contents to competing Contractors prior to and during the review and evaluation process. Following selection of a Contractor pursuant to this RFP, proposals may be subject to disclosure in accordance with applicable law.

Staff will evaluate proposals using a one hundred (100) point “best value” scale. Each criterion has a point value that corresponds to a weighted percentage, which are listed next to the criterion. Each criterion will be evaluated by the District and the District will award a point value to Contractor for each criterion. The maximum cumulative number of points available to any Contractor is 100 points. The criteria, their weighted percentages, and their corresponding point values are as follows:

- Bonding Capacity (weighted percentage: 10%; points possible: 10)
- Percentage of Credit Line Used (weighted percentage: 10%; points possible: 10)
- Experience (weighted percentage: 20%; points possible: 20)
- Financial History & Licensing (weighted percentage: 10%; points possible: 10)
- Disputes (weighted percentage: 20%; points possible: 20)
- Insurance and Bonding (weighted percentage: 10%; points possible: 10)
- Compliance with Law (weighted percentage: 10%; points possible: 10)
- Prevailing Wage & Apprenticeship Record (weighted percentage: 10%; points possible: 10)

For the qualifications portion of the best value analysis and for the purpose of evaluating Contractors' qualifications pursuant to the criteria set forth above, the District will evaluate each Contractor on the basis of the responses provided in the Contractor's completed Prequalification application, which was required to be completed and submitted to District as part of the prequalification process and as a condition precedent to submitting a proposal for the Project. In conjunction with a proposal, each proposing Contractor must include a statement certifying that Contractor's responses in its Prequalification submission continue to be true and correct at the time Contractor submits a proposal.

If any of Contractor's answers to the Prequalification application have changed since submitting the completed Prequalification application, then the proposing Contractor must also specify which answers have changed and provide amended answers to the District at the same time Contractor submits its Proposal. Contractor's amended answers will be used for the qualifications portion of the best value analysis and for the purpose of evaluating Contractors pursuant to the criteria set forth above, provided, however, that in the event Contractor's amended answers are a response of "No" to any of questions 1 through 6 of Part I of the Prequalification application, or a response of "Yes" to any of questions 7 through 8 of Part I of the Prequalification application, such response shall deem Contractor to not be minimally qualified to perform the Project and will result in rejection of Contractor's proposal for the Project.

Part 2: Price Proposal

For the price proposal portion of the best value analysis, the District will evaluate the amount of Contractor's lump sum price. The price proposal portion of the best value analysis will also be scored on a one hundred (100) point scale. District will score Contractors on the basis of the lowest to highest price proposal submitted. All Contractors submitting a price proposal will receive points, in increments of ten (10), based on the amount of the price proposal, with the Contractor with the lowest price proposal receiving the most points available and the Contractor with the highest price proposal receiving the fewest points available.

Specifically, the Contractor with the lowest price proposal will receive 100 points, the Contractor with the second lowest price proposal will receive 90 points, the Contractor with the third lowest price proposal will receive 80 points, and so forth until all Contractors have received points. In the event two Contractors submit price proposals with the same overall price, both Contractors shall be awarded the same amount of points.

After the District has allocated points to qualifying Contractors for both the qualification and price proposal portions of the best value analysis, the District will combine the points received by each Contractor based on Contractor's qualifications and price proposal to create each Contractor's best value score. District will then rank all Contractors based on each Contractor's best value score.

The Contractor with the highest best value score (highest combined point total from the qualifications and price proposal analysis) shall be ranked highest, and all remaining Contractors shall be ranked in descending order based on the Contractor's best value score, such that the Contractor receiving the lowest best value score receives the lowest ranking.

VI. AWARD

The District reserves the right to reject any or all proposals, or waive any irregularities in any of the proposals submitted pursuant to this RFP. The Project shall be awarded to the responsive Contractor with the highest best value score. In the event of a tie (more than one Contractor has the same highest best value score), District may award the Project to the Contractor of its choice.

The Board is expected to make its selection at its regular meeting on March 13, 2025. The meeting will be held at 7:00 p.m. in the District offices located at 650 N. Delaware Street, San Mateo, California. The District will issue a statement regarding the basis of the award.

If the Contractor to which the Board awards the Project refuses to execute the LLB Contract Documents and submit a payment bond, performance bond, proof of required insurance, and other required documents within ten (10) days following award, the Board may revoke the award to that Contractor and award to the Contractor that submitted the next highest ranked proposal.

CONTRACT REQUIREMENTS

A. Financing

The successful Contractor will be financing the construction of the Project through a lease- leaseback arrangement, and the District will be paying Contractor for its pre-construction services, construction services, and financing through monthly lease payments that will extend beyond the completion of the construction.

B. Proposed Budget

The District will require an open book policy with the successful Contractor and its construction team on the entire Project, meaning that all costs shall be clearly set forth to the District's satisfaction, including soft costs, site improvements, and construction costs. The District shall be entitled to have access to subcontractor bids, value engineering back-up, contingency breakdown and tracking, general conditions breakdown and tracking, documentation of Contractor's fees, and all other information necessary to verify construction costs.

The Project is subject to the payment of prevailing wages under the California Labor Code and applicable regulations, and the Project will be subject to compliance monitoring and enforcement by the California Department of Industrial Relations.

C. Cost Estimate

The District estimates that the total construction cost of the Project is Six Hundred and Five Thousand Dollars (\$605,000).

D. Scope of the Lump Sum Price Proposal

All proposals shall be in the form of a lump sum price. The lump sum price proposed by Contractor shall be the total amount for pre-construction and construction services, as set forth in the LLB Contract Documents (attached hereto as Exhibit C), which shall constitute the total compensation to Contractor for constructing the Project and performing the Work. Each Contractor's proposed lump sum price for the Project must cover all of Contractor's profit, and all of its costs of construction of the work specified in the LLB Contract Documents, including but not limited to the following:

1. General conditions and general requirements, including but not limited to temporary facilities, utilities, structures, fences, dust control, scheduling, safety, scaffolding, and SWPPP.
2. All subcontractor costs and material and equipment supplier costs.
3. Contractor's overhead, supervision of subcontractors and other management responsibilities, and its materials, equipment, and employees/labor (including but not limited to wages, salaries, and benefits) costs, for any work performed by the Contractor.
4. All bonds and insurance, including but not limited to payment and performance bonds.

5. All other costs incurred in performance of Contractor's obligations under the terms of the LLB Contract Documents, including but not limited to the Site Lease and Facilities Lease.

Once any pre-construction services are completed and subcontractors are selected, and upon approval of plans and specifications by DSA, the successful proposer and the District shall finalize the price for the services to be provided under the GMP.

VII. GENERAL INFORMATION

A. Amendments

The District reserves the right to cancel or revise this RFP in part or in its entirety. If the District cancels or revises the RFP, all Contractors will be so notified by addenda. The District also reserves the right to extend the dates when prequalification applications are due, responses are due, it announces the results of its best value analysis, or the date on which the award will be made.

schedule, which may be found on the California Department of Industrial Relations website at www.dir.ca.gov. Any Contractor to which a contract is awarded must pay the prevailing rates, post copies thereof at the job site, provide payroll records when required, and otherwise comply with applicable provisions of state law.

E. Limitations

This RFP does not commit the District to award a contract, to defray any costs incurred in the preparation of a proposal pursuant to the RFP, or to procure or contract for work. The District reserves the right to waive any irregularities in the proposals received pursuant to this RFP, or in the process outlined herein for selection of a contractor for the Project.

F. Validity of Proposals

All proposals will be considered valid and prices will be considered fixed for a period of sixty (60) days following submission.

G. Program Stabilization Agreement

The Project is subject to a Program Stabilization Agreement (“PSA”) entered into by and between the Board and the San Mateo County Building and Construction Trades Council. SUBCONTRACTOR DESIGNATION

[To be executed and submitted by Contractor with Guaranteed Maximum Price]

Each proposing Contractor shall set forth below the name and the location of the place of business of each subcontractor, and the California contractor license number of each subcontractor, who will perform work or labor or render service to the Contractor in or about the construction of the Project, or to a subcontractor licensed by the State of California who, under subcontract to the proposing Contractor, specially fabricates and installs a portion of the Project to detailed drawings contained in the plans and specifications, in an amount in excess of one-half of one percent (0.5%) of the proposing Contractor's total proposal, and the portion of the work which will be done by each subcontractor. An inadvertent error in listing a California contractor's license number shall not be grounds for filing a protest or for considering the proposal nonresponsive if the proposing Contractor submits the corrected contractor's license number to the District within 24 hours after the deadline for submittal of the proposal, or any continuation thereof, so long as the corrected contractor's license number corresponds to the submitted name and location for that subcontractor.

If the proposing Contractor fails to specify a subcontractor for any portion of the work to be performed under the LLB Contract Documents in excess of one-half of one percent (0.5%) of the proposing Contractor's total proposal, the proposing Contractor shall be deemed to have agreed to perform such portion itself, and shall not be permitted to subcontract that portion of the work except under the conditions hereinafter set forth.

Subletting or subcontracting of any portion of the work as to which no subcontractor was designated in the original proposal shall only be permitted as provided in subdivision (a)(4)(B) of Section 17406 of the Education Code, or in cases of public emergency or necessity and then only after a finding reduced to writing as a public record of the legislative body of the District.

For any proposal submitted, and for any contract for public work entered into, an inadvertent error in listing a subcontractor who is not registered under Labor Code Section 1725.5 shall not be grounds for filing a protest or grounds for considering the proposal nonresponsive, provided that either: the subcontractor is registered prior to the deadline for submittal of the proposal; or the subcontractor is registered and has paid the penalty registration fee specified in Labor Code Section 1725.5(a)(2)(E), if applicable, within 24 hours after the deadline for submittal of the proposal; or the subcontractor is replaced by another registered subcontractor under Public Contract Code Section 4107. Failure of a listed subcontractor to be registered shall be grounds under Public Contract Code Section 4107 for the Contractor, with the District's consent, to substitute a registered subcontractor for the unregistered subcontractor.

Failure to provide this information in a legible manner may result in the rejection of an otherwise acceptable proposal.

NOTE: *Reproduce the following table for additional listings that do not fit on it.*

I am the authorized representative of the proposing Contractor submitting this Designation of Subcontractors and I declare that each subcontractor listed holds a valid and current contractor license in good standing in California to perform the portion of work for which the subcontractor is listed.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on _____, 2025 , at _____ [city], _____ [state].

Business entities entering into contracts with the Owner for the construction, reconstruction, rehabilitation or repair of a facility must comply with Education Code Sections 45125.1 and 45125.2. Such entities are responsible for ensuring full compliance with the law and should therefore review all applicable statutes and regulations. LEASE; TENANT IMPROVEMENT PAYMENTS; TITLE TO THE SITE

4.1 Lease of Project and Site; No Merger. Lessor hereby leases the Site to the District, and the District hereby leases said Site from Lessor upon the terms and conditions set forth in this Facilities Lease. The leasing by Lessor to the District of the Site shall not effect or result in a merger of the District's leasehold estate pursuant to this Facilities Lease and its fee estate as lessor under the Site Lease, and Lessor shall continue to have and hold a leasehold estate in said Site pursuant to the Site Lease throughout the term thereof and the term of this Facilities Lease. As to the Site, this Facilities Lease shall be deemed and constitute a sublease.

4.2 Term of Facilities Lease. The term of this Facilities Lease shall commence on the Effective Date and shall terminate on completion of the Project (the "Term"), unless terminated earlier as provided in Section 4.3, provided, however, the Term may be extended in the case of a Default by the District as defined in this Agreement.

Lessor shall provide the District with quiet use and enjoyment of the Site, and the District shall during such Term peaceably and quietly have and hold and enjoy the Site subject to Lessor's construction of the Project, without suit, trouble or hindrance from Lessor, except as otherwise may be set forth in this Facilities Lease or the GMP Contract. Lessor will, at the request of the District and at Lessor's cost, join in any legal action in which the District asserts its right to such possession and enjoyment to the extent Lessor may lawfully do so based on the leasehold interests Lessor holds under the Site Lease and this Facility Lease. Notwithstanding the foregoing, Lessor shall have the right to inspect the Project and the Site as provided in Section 7.1 hereof.

4.7 Title. During the Term of this Facilities Lease, the District shall hold fee title to the Site. During the Term of this Facilities Lease, Lessor shall have a leasehold interest in the Site pursuant to the Site Lease. and vested in the District at the expiration of the Term or upon the payment by the District of the final Tenant Improvement Payment, whichever shall come first. Title shall be transferred to and vested in the District hereunder without the necessity for any further instrument or transfer, provided, however, that Lessor agrees to execute any instrument reasonably requested by District to memorialize such termination of this Facilities Lease and transfer title to the District.

4.8 [Intentionally Omitted].

4.9 [Intentionally Omitted].

4.10 Lease Terminable Only As Set Forth Herein.

4.10.1 Except as otherwise expressly provided in this Facilities Lease, this Facilities Lease shall not terminate, nor shall District have any right to terminate this Facilities Lease or be entitled to the abatement of any Tenant Improvement Payments, or any amounts, including without limitation Progress Payments, Retention or other amounts allowed as Cost of the Work, due under the GMP Contract, or any reduction thereof, nor shall the obligations hereunder of District be otherwise affected by reason of any damage to or destruction of all or any part of the Project from whatever cause, the taking of the Site or any portion thereof by condemnation or otherwise, the prohibition, limitation or restriction of District's use of the Site, interference with such use by any private person or corporation, or the District's acquisition of the ownership of the Site (other than pursuant to an express provision of this Facilities Lease), or for any other cause whether similar or dissimilar to the foregoing, any present or future law to the contrary notwithstanding. It is the intention of the parties hereto that the Tenant Improvement Payments, the Progress Payments Retention or other amounts allowed as Cost of the Work, due under the GMP Contract, and all other charges payable hereunder to or on behalf of Lessor shall continue to be payable in all events, and the obligations of the District hereunder shall continue unaffected unless the requirement to pay or perform the same shall be terminated or modified pursuant to an express provision of this Facilities Lease.

4.10.2 Nothing contained herein shall be deemed a waiver by the District of any rights that it may have to bring a separate action with respect to any default by Lessor hereunder or under any other agreement to recover the costs and expenses, including attorneys' fees if District is prevailing party, associated with such separate action.

ARTICLE 5

MAINTENANCE; TAXES; INSURANCE AND OTHER MATTERS

5.1 Maintenance. Following delivery of possession of the Project by Lessor to District, the repair, improvement, replacement and maintenance of the Project and the Site shall be at the sole cost and expense and the sole responsibility of the District, subject only to all warranties against defects in materials and workmanship provided in the GMP Contract, and the District shall pay for or otherwise arrange for the payment of the cost of the repair and replacement of the Project resulting from ordinary wear and tear.

5.2 Utilities. Prior to completion of the Project by Lessor, Lessor shall pay all utility costs as they specifically relate to the work Lessor is performing under the GMP Contract. Following Substantial Completion of the Project, the cost and expenses for all utility services, including, but not limited to,

electricity, natural gas, telephone, water, sewer, trash removal, cable television, security, heating, water, internet service and all other utilities of any type shall be paid by District.

5.3 Taxes and Other Impositions. All ad valorem real property taxes, special taxes, excise taxes, possessory interest taxes, bonds and special lien assessments or other impositions of any kind with respect to the Project, this Facilities Lease, the Site Lease, the Property, the GMP Contract or the Site and the improvements thereon, charged to or imposed upon either Lessor or the District or their respective interests or estates in the Project, shall at all times be paid by District. In the event any possessory interest tax is levied on Lessor, its successors and assigns, by virtue of this Facilities Lease, the Site Lease, or GMP Contract, District shall pay such possessory interest tax directly, if possible, or shall reimburse Lessor, its successors and assigns for the full amount thereof within thirty (30) days after presentation of proof of payment by Lessor.

5.4 Insurance. The District shall maintain in full force or cause to be maintained for the duration of this Facilities Lease, a standard commercial comprehensive, general public liability and property damage insurance policy or policies concerning the Project for all risks. Such policy or policies shall provide coverage in the minimum liability limits of \$2,000,000 per occurrence with a \$ 4,000,000 general aggregate.

District's insurance under this section may be maintained as part of or in conjunction with any other insurance carried or required to be carried by the District. The District shall cause to be delivered to Lessor a certificate stating that the insurance policies required by this Lease are in full force and effect and that Lessor is named as an additional insured.

Lessor's insurance as required under the terms of the GMP Contract shall continue to be primary for all injuries arising out of its operations or completed operations. The District agrees to waive subrogation rights for claims covered by the District's insurance pursuant to Section 5.6 for which the District submits a claim to its insurer and agrees that the District shall insure against and bear the risk of loss for perils excluded or not covered under the builder's risk policy of insurance provided by Lessor as part of the GMP Contract. Except for the foregoing, nothing contained herein shall limit the District's equitable and contractual rights to the indemnification and insurance coverage provided by Lessor or its subcontractors pursuant to the GMP Contract and the Sublease.

5.5 Cancellation or Change of Coverage. District agrees that the insurance coverages required above in Section 5.4 shall be in effect at all times after acceptance of the Project by District. After District's Substantial Completion of the Project, all insurance required to be carried by District shall be primary except as provided herein. Insurance required in Section 5.4 shall not be canceled or changed so as to no longer meet the specified insurance requirements without thirty (30) days' prior written notice of such cancellation or change being delivered to Lessor.

5.6 Waiver of Subrogation. Lessor and District each hereby waive any right of recovery and/or subrogation against the other due to loss of, or damage to, the property of either Lessor or District to the extent covered by property insurance obtained in accordance with the provisions of this Article 5, and shall cause their respective insurance carriers to include such a waiver of subrogation in all applicable policies.

All such policies must provide that Lessor will be given thirty (30) days' prior written notice of expiration, any intended cancellation or reduction of the coverage provided. Lessor is not responsible for the sufficiency of any insurance herein required.

5.9 Modification of Project. The District has the right, at its expense, to make additions, modifications and improvements to the Project and the Site, provided, however, that during the one (1) year warranty period which will be provided by Lessor on defects in materials and workmanship for the Project following the Project's completion, the District shall first obtain Lessor's prior written consent to any additions, modifications and improvements to the Project. Lessor agrees not to unreasonably withhold, delay or condition approval of the District's plans for any proposed additions, modifications and improvements to the Project. All additions, modifications and improvements to the Project will thereafter comprise part of the Project and be subject to the provisions of this Facilities Lease. Such additions, modifications and improvements may not in any way damage the Project or cause the Project to be used for purposes other than those authorized under the provisions of State and federal law, and the District must file with Lessor a written certificate stating that the Project, upon the completion of any additions, modifications and improvements made thereto has a value which is not substantially less than the value of the Project immediately prior to the making of any such additions, improvements and modifications. Notwithstanding anything to the contrary contained herein, District shall have the right, without Lessor's consent, to place relocatables or portables upon the Site, along with incidental site work, and such relocatables and portables shall not become part of the Project and shall remain the personal property of the District.

5.10 Compliance with Laws. Regulations.

5.10.1 Except as disclosed in the Guaranteed Maximum Price Documents the District has no actual knowledge and has not given or received any written notice indicating that the Site or the past or present use thereof or any practice, procedure or policy employed by it in the conduct of its business materially violates any applicable law, regulation, code, order, rule, judgment or consent agreement, including, without limitation, those relating to zoning, building, use and occupancy, fire safety, health, sanitation, air pollution, ecological matters, environmental protection, hazardous or toxic materials, substances or wastes, conservation, parking, architectural barriers to the handicapped, or restrictive covenants or other agreements affecting title to the Site (collectively "Laws and Regulations"). Subject to Lessor’s construction of the Project, the District shall not use or permit the Site or any part thereof to be used to generate, manufacture, refine, treat, store, handle, transport or dispose of, transfer, produce or process Hazardous Materials, except, and only to the extent, if necessary, to maintain the improvements at the Project and then only in compliance with all Laws and Regulations and any state equivalent laws and regulations, nor shall it permit, as a result of any intentional or unintentional act or omission on its part or by any tenant, subtenant, licensee, guest, invitee, contractor, employee and agent, the storage, transportation, disposal or use of Hazardous Materials or the Release or threat of Release of Hazardous Materials on, from or beneath the Project or onto any other property excluding, however, those Hazardous Materials in those amounts ordinarily found in the inventory of schools and school facilities, the use, storage, treatment, transportation and disposal of which shall be in compliance with all Laws and Regulations. Upon the occurrence of any release or threat of Release of Hazardous Materials through no fault of Lessor, the District shall promptly commence and perform, or cause to be commenced and performed promptly, without cost to Lessor, all investigations, studies, sampling and testing, and all remedial, removal and other actions necessary to clean up and remove all Hazardous Materials so released, on, from or beneath the Site and project or other property, in compliance with all Laws and Regulations.

6.1.2 Partial Taking. If less than all of the Site shall be taken permanently, or if all of the Site or any part thereof shall be taken temporarily, under the power of eminent domain, (1) this Facilities Lease shall continue in full force and effect and shall not be terminated by virtue of such taking and the parties waive the benefit of any law to the contrary, provided the District has paid all amounts due Lessor under this Facilities Lease and the GMP Contract and the parties agree on a modification to the Project and the final Guaranteed Maximum Price to reflect the changed circumstances; and (2) there shall be a pro rata abatement of Tenant Improvement Payments such

Lessor and District agree that the obligation to repair or replace the Site shall be in accordance with the following provisions:

6.2.1 Escrow. Any proceeds payable to Lessor and District from property insurance policies shall be immediately deposited in an escrow account established with an escrow holder selected by Lessor (the "Escrow").

6.2.2 Total Destruction. In the event that ninety percent (90%) or more of the Site is destroyed or damaged (a "Total Destruction") then either party may terminate this Facilities Lease, the Site Lease and the GMP Contract, and Lessor shall receive the insurance proceeds equal to a prorata amount of the final Guaranteed Maximum Price, including all Tenant Improvement Payments and Progress Payments, adjusted for the status of the Project as of such date, with any remaining insurance proceeds to be retained by District. Lessor shall have no obligation to contribute funds for the rebuilding of the Site. Anything less than a Total Destruction of the Site shall be deemed a "Partial Damage or Destruction."

6.2.3 Partial Damage or Destruction. In the event that the Site is partially damaged or destroyed District shall repair or have repaired the Site utilizing the proceeds from insurance which were deposited into the Escrow.

6.2.4 Deductibles; Self Insurance. Where any loss is covered by insurance required by this Facilities Lease which contains provisions for any deductible amount, the District shall contribute to the cost of rebuilding any such deductible amount or the amount of any self-insurance maintained by District.

Compensation for such Additional Services shall be negotiated and agreed upon in writing, in advance of Contractor’s performing or contracting for such Additional Services and paid to Contractor in addition to the GMP established pursuant to Section 4 hereof. In the absence of such written agreement, the District will not compensate Contractor for such work, and Contractor will not be required to perform it. Nothing in this Construction Services Agreement shall be construed as limiting the valuation and amount to be paid to Contractor for such Additional Services or its implementation should a written agreement for such services be executed. Contractor shall not be entitled to compensation for Additional Services required as a result of Contractor’s acts, errors or omissions.

SECTION 4. **ESTABLISHMENT OF GUARANTEED MAXIMUM PRICE “GMP”**

- A. **The Preliminary GMP for the Project is estimated as of the date of this Agreement to be TBD.** The final GMP shall be agreed upon after the contract is awarded to the “best value” proposer, receipt of all subcontractor bids for the Project and the District’s acceptance of Contractor’s recommended value engineering in the event the Construction Costs exceed the District’s budget. The Value Engineering Options are attached as Exhibit ____. The preliminary GMP is based on the itemization in Exhibit ____, attached.

The scope of work shall be based upon plans and specifications approved by DSA at the time the Notice to Proceed is issued by the District including any applicable value engineering and

subsequent resubmittal for approval. Tenant Improvement Payments by the District to Contractor pursuant to Section 21 hereof and the Facility Lease shall be commensurate with the final GMP.

Contractor's Contingency is for the exclusive use of Contractor to pay for miscellaneous work items, which are required to complete the Project. Contractor shall not use Contractor's Contingency to pay for costs related to the following: (a) errors or omissions in the Construction Documents; (b) discrepancies with the plans and specifications as pertains to applicable building code requirements; (c) and/or enhancements or additions to the Scope of Work desired by the District. Costs related to (a)-(c) above will be paid for pursuant to the provisions of Section 9, below, or from the District's contingency portion of the GMP, if any.

- B. If the District and Contractor cannot agree upon reduction of the Project scope through value engineering solutions to bring the Construction Costs in line with the District's budget, the District may immediately terminate this Agreement for convenience at any time before or after the inception of the Project as set forth in this Agreement upon written notice to Contractor without any cost or expense to the District.

SECTION 5. NOTICE TO PROCEED

The District shall issue the Notice to Proceed prior to commencement of the Project, provided, however, the District shall not be obligated to issue the Notice to Proceed if the District has not received DSA approved plans for the Project, the approval of the Board of Directors of the District (the "Board") of the final GMP, and if the District has not completed any applicable procedures required by the California Environmental Quality Act, California Public Resources Code § 21000 *et seq.* (See "Effective Date" of the Lease). District may issue a separate Notice to Proceed on one or more of the Phases of the Project.

In the event a Notice to Proceed for the Project is not issued for the reason set forth in this Section, the District will notify Contractor in writing of its decision not to issue a Notice to Proceed for the Project, or any portion thereof, and Contractor shall not be entitled to any compensation for work performed in connection with the services set forth in this Construction Services Agreement.

SECTION 6. SAVINGS

- A. The District desires to minimize the expenditure of funds for the construction of the Project on items that exceed the minimum criteria required without a corresponding benefit to the District, and to eliminate any excess quality levels or performance criteria provided in the Construction Documents so long as such elimination does not alter the design, aesthetics, safety standards or configuration or space, and does not increase future maintenance and operation costs (collectively "Savings"). The District and Contractor shall work cooperatively with each other, in good faith, to identify appropriate opportunities to reduce the Project costs and promote Savings.
- B. If Contractor realizes Savings on any aspect of the Project, as enumerated in Section 6.A. only, and shall not include any savings realized by the Contractor by its own efficient operations, self-performed work, means and methods, such Savings shall be set aside as the District's contingency portion of the GMP and shall be expended in a manner consistent with other funds in the District's contingency portion of the GMP. Contractor shall document all Savings on an ongoing Project budget tracking summary and presented to the District at regularly scheduled construction meetings with the District. Any Savings, including unspent District contingency, realized on the Project will be returned to the District at Project completion.

SECTION 7. SELECTION OF SUBCONTRACTORS

If used, electrical, mechanical, and plumbing subcontractors shall be subject to the same prequalification requirements for prospective bidders described in subdivisions (b) to (m), inclusive, of Section 20111.6 of the Public Contract Code, including the requirement for the completion and

submission of a standardized prequalification questionnaire and financial statement that is verified under oath and is not a public record.

As required by Ed. Code section 17406(a)(4), in awarding construction subcontracts with a value exceeding one-half of 1 percent of the price allocable to the construction work to subcontractors not identified in Contractor's original proposal, Contractor shall (1) provide public notice of availability of work to be subcontracted in accordance with the publication requirements applicable to the competitive bidding process of the school district, including a fixed date and time on which qualifications statements, bids, or proposals will be due; (2) establish reasonable qualification criteria and standards; and (3) award the subcontract either on a best value basis or to the lowest responsible bidder.

In the event Contractor does not comply with this provision, the District may terminate this Construction Services Agreement in accordance with the provisions of Section 11 below.

1. **DVBE Requirements**

Compliance with Disabled Veteran Business Enterprise (DVBE) contracting goals is required under this Construction Services Agreement. In accordance with Education Code section 17076.11 the District has a DVBE participation goal of 3% per year of the overall dollar amount of state funds allocated to the District pursuant to the Leroy F. Greene School Facilities Act of 1998, and expended each year by the District. The District is seeking DVBE participation under this Construction Services Agreement.

Contractor must make a good faith effort to contact and utilize DVBE contractors and suppliers in securing bids for performance of the Project. Information regarding certified DVBE firms can be obtained from the Office of Small Business Certification and Resources (OSBCR) at (916) 375-4940 as well as the OSBCR website at www.dgs.ca.gov/osbc. Verification of DVBE status must be obtained from the OSBCR by receiving an approved certification letter and reference number from that office. Contractor is encouraged to retain documentation of its good faith efforts, in the event such documentation is requested by the District. Good faith efforts are demonstrated by evidence of the following: a) Contact was made with the District regarding the identification of DVBEs; b) Contact was made with other state agencies and with local DVBE organizations to identify DVBEs; c) Advertising was published in trade papers and papers focusing on DVBEs; d) Invitations to bid were submitted to potential DVBE contractors; and e) Available DVBEs were considered.

Contractor shall certify, under penalty of perjury, that a good faith effort was made to include DVBE contractors and suppliers in the Project.

SECTION 8. **CONSTRUCTION SCOPE OF WORK**

Please refer to Exhibit A, "Scope of Work," attached hereto.

- A. **CPM Master Schedule.** Prior to commencing, Contractor shall submit to the District a reasonably detailed CPM (Critical Path Method) Master Schedule for the construction, as set forth in Section 10.E. herein, consistent with the estimated start dates described in Exhibit A.
- B. **Pre-Construction Orientation/Construction Meetings.** Contractor, in conjunction with the Architect, shall conduct pre-construction orientation conferences for the benefit of Subcontractors to orient the Subcontractors to the various reporting procedures and site rules prior to the commencement of actual construction. Contractor shall also conduct construction and progress meetings with the District Representatives and other interested parties, as requested by the District, to discuss such matters as procedures, progress problems and scheduling. Contractor shall prepare

and promptly distribute official minutes of such meetings to all parties in attendance including Architect, the District and Inspector.

- C. **Budget/Cash Flow Reports** DSA projects. Contractor shall incorporate approved changes as they occur, and develop cash flow reports and forecasts for submittal to the District on a monthly basis. Contractor shall provide regular monitoring of the approved estimates of Construction Costs, showing actual costs for activities in progress, and estimates for uncompleted tasks. Contractor shall identify variances between actual and budgeted or estimated costs, and advise the District and the Architect whenever Project costs exceed budgets or estimates. Contractor shall maintain cost accounting records on authorized additional services or work performed under unit costs, additional work performed on the basis of actual costs of labor and materials, or other work requiring accounting records.
- D. **Progress Reports**. Contractor shall record the progress of the Project, and shall submit monthly written progress reports to the District and the Architect including information on the entire Project, showing percentages of completion and the number and amounts of proposed Extra Work/Modifications and their effect on the Construction Costs as of the date of the report. Contractor shall also keep a daily log containing a record of weather, Subcontractors, work on the sites, number of workers, work accomplished, problems encountered, and other similar relevant data as the District may require. Contractor shall make the log available to the District and the Architect. The District shall be promptly informed of all anticipated delays. In the event that Contractor determines that a schedule modification is necessary, Contractor shall promptly submit a revised Schedule for approval by the District.
- E. **Scheduling**. Contractor shall complete the construction pursuant to the CPM Master Schedule and Construction Documents, subject to DSA approval and reduction in scope, performing all work set forth in the Scope of Work (Exhibit A to this Construction Services Agreement).
- F. **District Permit and Other Obligations**. It is expressly understood that the District shall pay the DSA for the DSA inspector, soils testing, DSA fees, special testing, etc. If additional review or permits become necessary for reasons not due to Contractor's fault or because of DSA requirements or regulations implemented after the date the GMP is established and not reasonably anticipated at the time the GMP is established, Contractor may seek additional compensation for the cost of that review as an additional cost. In the alternative, the District may pay such costs directly to DSA.
- G. **Contractor Permit Obligations**. The District shall pay for all remaining general building permits and ancillary permits and licenses not paid by the District prior to the commencement of this Construction Services Agreement. The District shall also be responsible for arranging and overseeing, all necessary inspections and tests, including inspections by the DSA, permits and occupancy permits, and ensure compliance with any Federal and State laws. Contractor shall be responsible for arranging and overseeing safety procedures and requirements and construction employee training programs which cover among other items, hazardous chemicals and materials.
- H. **Protection**. Contractor shall establish procedures for the protection of all existing structures, equipment, utilities, and other existing improvements, both on-site and off-site.
- I. **Nuisance Abatement**. Contractor shall develop a mutually agreed upon program with the District to abate and minimize noise, dust, and disruption to normal activities at the existing facilities on the Site, including procedures to control on-site noise, dust, and pollution during construction.
- J. **Site Mitigation and Remediation**. The District shall perform any required Site mitigation or remediation at its sole cost, unless such Site mitigation or remediation is necessitated by any of the conditions described in Section 32 hereof, in which event the provisions of that section shall govern. The District shall be responsible for any asbestos and lead abatement and/or remediation work, unless specifically required by construction documents to be performed by Contractor.

- K. **Utilities.** Contractor shall perform and pay for all temporary utility hook-ups and connections. The District shall pay for use of utilities during construction, as well as any fees owed to utility suppliers for connection to existing mainline facilities.

SECTION 9. **EXTRA WORK/MODIFICATIONS**

- A. The District may prescribe extra work or a modification or reduction of requirements or of methods of performing the Construction which differ from the work or requirements set forth in the Construction Documents (“Extra Work/Modifications”); and for such purposes, the District may at any time during the life of this Construction Services Agreement by written order, make such changes as it shall find necessary in the design, line, grade, form, location, dimensions, plan, or material of any part of the work or equipment specified herein or in the Construction Documents, or in the quantity or character of the work or equipment to be furnished. In the event conditions develop which make strict compliance with the specifications impractical, Contractor shall notify the District of the need for such Extra Work/Modification by placing the matter on the agenda of regularly scheduled construction meetings with the District for discussion as soon as practicable after the need for such Extra Work/Modification is determined. Additionally, Contractor shall submit to the District for its consideration and approval or disapproval, a written request for Extra Work/Modifications before such work is performed. If the District approves such request in writing, the costs of the Extra Work/Modifications, as established pursuant to this Section 9, shall be added to or deducted from the GMP, as applicable.
- B. Value of any such Extra Work/Modification, change, or deduction shall be determined at the discretion of the District, in consultation with the Architect, in one or more of the following ways:
 1. By acceptable lump sum proposal from Contractor with itemization as required by the District and/or the Architect.
 2. By unit prices contained in Contractor’s cost estimates and incorporated in the Contract Documents or fixed by subsequent agreement between the District and Contractor.
 3. By the cost of material and labor and a percentage for Contractor’s construction management fee. The following form shall be followed as applicable for additions and deductions to the Construction Services Agreement:

		EXTRA/(CREDIT)
a.	Material (attach itemized quantity and unit cost plus sales tax)	_____ _____
b.	Labor (attach itemized hours and base rates from identified prevailing wage rate schedules)	_____
c.	Commercial General Liability and Property Damage Insurance, Workers’ Compensation Insurance, Social Security and Unemployment taxes at actual and verified Cost	_____
d.	Subtotal	_____
e.	Contractor’s Construction Management Fee, not to exceed 5% of Item (d)	_____
f.	Subtotal	_____

g. Bond Premium, not to exceed 1% of Item (f)

h. Total

- C. Regardless of whether the cost of the Extra Work/Modification is determined pursuant to 1, 2, or 3, above, in addition to the cost of the material and labor for deleted items, Contractor shall credit back an appropriate and reasonable amount for the bonding mark up for deleted items at the time of the request for the Extra Work/Modification.
- D. Should Contractor claim that any instruction, request, drawing, specification, action, condition, omission, default, or other situation: (i) obligates the District to pay additional compensation to Contractor; or (ii) obligates the District to grant an extension of time for the completion of the Construction Services Agreement; or (iii) constitutes a waiver of any provision in this Construction Services Agreement, CONTRACTOR SHALL NOTIFY THE DISTRICT, IN WRITING, OF SUCH CLAIM AS SOON AS POSSIBLE, BUT IN NO EVENT WITHIN MORE THAN TEN (10) BUSINESS DAYS FROM THE DATE CONTRACTOR HAS ACTUAL OR CONSTRUCTIVE NOTICE OF THE CLAIM. CONTRACTOR SHALL ALSO PROVIDE DISTRICT WITH SUFFICIENT WRITTEN DOCUMENTATION SUPPORTING THE FACTUAL BASIS OF THE CLAIM including in the documentation items B.3.a.–h. described in this Section. Contractor shall be required to certify under penalty of perjury the validity and accuracy of any claims submitted. Contractor’s failure to notify the District within such ten (10) business day period shall be deemed a waiver and relinquishment of the claim against the District. If such notice be given within the specified time, the procedure for its consideration shall be as stated above in this Section.
- E. In the event a mutual agreement cannot be reached on the cost of an Extra Work/Modification item, Contractor and the District agree that an industry estimating guide, such as an estimating guide published by Means, shall be used to determine the cost of a disputed Extra Work/Modification item.
- F. All costs associated with the Extra Work/Modification may be in terms of time, money or both.
- G. Expenses of reconstruction and/or costs to replace and/or repair damaged materials and supplies, provided that Contractor is not fully compensated for such expenses and/or costs by insurance or otherwise, may be added to the GMP, if said expenses are the result of the negligent acts or omissions or willful misconduct of the District or its Architect, subcontractors, principals, agents, servants, or employees.

SECTION 10. TIME OF COMPLETION

- A. Once the District has issued a Notice to Proceed, Contractor shall proceed with the Construction of the Project with due diligence. Contractor agrees that the Project will be completed as specified herein by the date indicated in Exhibit A, or the CPM schedule approved by the District, as said time may be extended for such periods of time as Contractor is prevented from proceeding with or completing the Project for any cause described in this Section 10, or as otherwise agreed to in writing by the District and Contractor. It being impractical and infeasible to determine the amount of actual damage, it is agreed that Contractor shall pay to the District as fixed and liquidated damages, and not as a penalty, the sum of One Thousand Dollars (\$1,000.00) per day for each calendar day of delay:
 - (i) until Contractor is ready and able to begin work on the Project at the Site and has indeed begun work in good faith, if the agreed-upon start date has been missed;
 - (ii) until work for the Site is Substantially Completed (the “Substantial Completion Date”) if the Substantial Completion Date is past the agreed-upon completion date; and

(iii) until work for the Site is Fully Completed and Accepted (the “Full Completion Date”) if the Full Completion Date is past the agreed-upon completion date.

Contractor and his surety shall be liable for the amount thereof. Any money due or to become due Contractor may be retained by the District to cover said liquidated damages.

- B. In the event that the performance and/or completion of the Project, is delayed at any time by any act or omission of the District or of any employee, agent or tenant of the District, by any separate Contractor employed by the District, its Architect, or by changes or alterations in the Project not caused by any fault or omission by Contractor, by strikes, by lockouts, by fire, by embargoes, by windstorm, by flood, by earthquake, by acts of war or God, by changes in public laws, regulations or ordinances enacted after the date of execution of this Construction Services Agreement by acts of public officials not caused by any fault or omission of Contractor, by an inability to obtain materials or equipment not caused by any act or omission of Contractor, or by any other cause beyond the reasonable control of Contractor, the aforesaid date for completion of the Project, as to the affected Site or Site, shall be extended for a period commensurate with the delay. Contractor shall not be charged liquidated damages because of such delays in completion of work or delays otherwise due to unforeseeable causes beyond the control and without the fault or negligence of Contractor.
- C. The term “Substantially Completed” or “Substantial Completion” as used herein shall mean completed in such fashion as to enable the District, upon performance of any separate work to be done by the District under separate contract or by day labor, beneficially to occupy the Project and to commence operation therein, provided such occupancy and use does not substantially interfere with Contractor’s performance of the remainder of the work, as agreed upon between Contractor and the District, which may be accomplished prior to the completion of the work.
- D. The term “Fully Completed and Accepted” or “Full Completion and Acceptance” as used herein, shall mean that all work has been completed in accordance with the Construction Documents and that successful testing, startup and satisfactory operation of the Project, or any Site, as a total unit has been accomplished in substantial conformance with the Construction Documents.
- E. Within five (5) business days after the District’s delivery of a Notice to Proceed for the Project, Contractor shall furnish the District with a reasonably detailed CPM (Critical Path Method) Schedule, setting forth the expected dates for commencement and completion of each of the various stages of construction to be performed by Contractor pursuant to this Construction Services Agreement (the “Time Schedule”). Contractor shall submit the master schedule to the District for acceptance and update the master schedule as appropriate on at least a monthly basis. Contractor shall incorporate the activities of Contractors on the Project and delivery of products requiring long lead time procurement. Contractor shall also include the District’s occupancy requirements showing portions of the Projects having occupancy priority. Contractor shall be responsible for providing the District with an Estimated Monthly Cost Projection Schedule within five (5) working days of the District’s issuance of a Notice to Proceed, which will be updated every ninety (90) days, or as needed. It is specifically understood that the District will utilize said Time Schedule as it is revised from time to time to determine completion dates of various aspects of the Project. Lease Prepayments under the Facility Lease shall be conditioned upon completion of various aspects of the Project as determined by the District’s Inspector pursuant to the Time Schedule and the Estimated Monthly Cost Projection Schedule.
- F. Contractor shall not be assessed liquidated damages for this Construction Services Agreement and shall not be subject to any damages for delay in completion of the Project, when such delay was caused by the failure of the District or the owner of the utility to provide for removal or relocation of the existing main or trunkline utility facilities; however, when Contractor is aware that removal or relocation of an existing utility has not been provided for, Contractor shall promptly notify the District and the utility in writing, so that provision for such removal or relocation may be made to avoid and minimize any delay which might be caused by the failure to remove or relocate the main

or trunkline utility facilities, or to provide for its removal or relocation. In accordance with Section 4215 of the Government Code, if Contractor while performing the work on the project discovers any existing main or trunkline utility facilities not identified by the public agency (the District) in the contract plans or specifications, Contractor shall immediately notify the public agency (the District) and utility in writing. The public utility, where they are the owner, shall have the sole discretion to perform repairs or relocation work or permit Contractor to do such repairs or relocation work at a reasonable price. Contractor shall be compensated for the costs of locating, repairing damage not due to the failure of Contractor to exercise reasonable care, and removing or relocating such utility facilities not indicated in the plans and specifications with reasonable accuracy, and for equipment on the Project necessarily idled during such work. Such compensation shall be in accordance with the extra work provisions set out in Section 9 hereof.

SECTION 11. **TERMINATION OF AGREEMENT**

A. **Termination for Breach**

1. If Contractor refuses or fails to prosecute the Construction of the Project or any separable part thereof, with such diligence as will insure its completion within the time specified by this Construction Services Agreement or any extension thereof, or fails to complete the Project, within such time, or if Contractor should be adjudged bankrupt, or if it should make a general assignment for the benefit of its creditors, or if a receiver should be appointed on account of its insolvency, or Contractor or any of its subcontractors should violate any of the provisions of this Construction Services Agreement, the District may serve written notice upon Contractor and its Surety of the District's intention to terminate this Construction Services Agreement. This notice of intent to terminate shall contain the reasons for such intention to terminate this Construction Services Agreement and a statement to that effect that Contractor's right to perform work on the Project shall cease and terminate upon the expiration of fifteen (15) days unless such violations have ceased and arrangements satisfactory to the District have been made for correction of said violations.
2. In the event that the District serves such written notice of termination upon Contractor and the Surety, the Surety shall have the right to take over and perform this Construction Services Agreement in its entirety. If the Surety does not: (1) give the District written notice of Surety's intention to take over and commence performance of this Construction Services Agreement within fifteen (15) days of the District's service of said notice of intent to terminate upon Surety; and (2) actually commence performance of this Construction Services Agreement within thirty (30) days of the District's service of said notice upon Surety; then the District may take over the Project and prosecute the same to completion by separate contract or by any other method it may deem advisable for the account and at the expense of Contractor.
3. In the event that the District elects to obtain an alternative performance of the Construction Services Agreement as specified above: (1) the District may, without liability for so doing, take possession of and utilize in completion of the Project such materials, appliances, plants and other property belonging to Contractor that are on the site and reasonably necessary for such completion; and (2) Surety shall be liable to the District for any cost or other damage to the District necessitated by the District securing an alternate performance pursuant to this Section 11.

B. **Termination for Convenience**

1. The District may terminate performance of the Project called for by the Contract Documents in whole or, from time to time, in part, if the District determines that a termination is in the District's interest.

2. Contractor shall terminate all or any part of the Project upon delivery to Contractor of a “Notice of Termination” specifying that the termination is for the convenience of the District, the extent of termination, and the effective date of such termination.
3. After receipt of Notice of Termination, and except as directed by the District’s representative, Contractor shall, regardless of any delay in determining or adjusting any amounts due under this Termination for Convenience clause, immediately proceed with the following obligations:
 - a. Stop Work as specified in the Notice of Termination.
 - b. Complete any work specified in the Notice of Termination in a least cost/shortest time manner while still maintaining the quality called for under the Contract Documents.
 - c. Leave the Property upon which Contractor was working and upon which the facility (or facilities) forming the basis of the Contract Documents is situated in a safe and sanitary manner such that it does not pose any threat to the public health or safety.
 - d. Terminate all subcontracts to the extent that they relate to the portions of the work terminated.
 - e. Place no further subcontracts or orders, except as necessary to complete the continued portion of the Construction Services Agreement.
 - f. Submit to the District’s Representative, within ten (10) days from the effective date of the Notice of Termination, all of the usual documentation called for by the Contract Documents to substantiate all costs incurred by Contractor for labor, materials and equipment through the effective date of the Notice of Termination. Any documentation substantiating costs incurred by Contractor solely as a result of the District’s exercise of its right to terminate this Construction Services Agreement pursuant to this clause, which costs Contractor is authorized under the Construction Services Agreement to incur, shall: (i) be submitted to and received by the District no later than thirty (30) days after the effective date of the Notice of Termination; (ii) describe the costs incurred with particularity; and (iii) be conspicuously identified as “Termination Costs occasioned by the District’s Termination for Convenience.”
4. Termination of the Construction Services Agreement shall not relieve the Surety of its obligation for any just claims arising out of or relating to the work performed on the Project.
5. In the event that the District exercises its right to terminate this Construction Services Agreement pursuant to this clause, the District shall pay Contractor, upon Contractor’s submission of the documentation required by this provision, and other applicable provisions of the Construction Services Agreement, the following amounts:
 - a. All actual costs incurred according to the provisions of this Construction Services Agreement including but not limited to insurance costs incurred in connection with the Project.
 - b. A reasonable allowance for profit on the cost of the work on the Project performed, provided Contractor establishes to the satisfaction of the District, that it is reasonably probable that Contractor would have made a profit had the Construction Services Agreement been completed and provided further, that the

profit allowed shall in no event exceed ten percent (10%) of costs. In no event shall the total amount exceed GMP.

- c. A reasonable allowance for Contractor's administrative and demobilization costs in determining the amount payable due to termination of the Construction Services Agreement under this Section 11.

C. **Termination of Agreement by Contractor**

- 1. Contractor may terminate the Construction Services Agreement upon ten (10) days written notice to the District, whenever: (1) the entire Project has been suspended for ninety (90) consecutive days through no fault or negligence of Contractor and notice to resume the Construction Services Agreement or to terminate the Construction Services Agreement has not been received from the District within this time period; or (2) the District should fail to pay Contractor any substantial sums due it in accordance with the terms of the Construction Services Agreement and within the time limits prescribed; or (3) the District shall elect not to appropriate funds and/or not to make any two (2) successive Tenant Improvement Payments following the receipt by the District or a request from Contractor in its capacity as Lessor for each such Tenant Improvement Payment submitted pursuant to Section 7.A. (or Section 27.A.) of the Facility Lease. In the event of such termination, Contractor shall have no claims against the District except for work performed on the Project as of the date of termination.

SECTION 12. **PERSONNEL ASSIGNMENT**

- A. Contractor shall assign _____ as Construction Manager (whose responsibilities are defined in Section 26) for the Project. So long as the Construction Manager remains in the employ of Contractor, such person shall not be changed or substituted from the Project. In the event Contractor deems it necessary, Contractor shall replace the Construction Manager for the Project with a replacement with like qualifications and experience, subject to the prior written consent of the District, which consent shall not be unreasonably withheld. Any violation of the terms and provisions of this Section 12.A. shall entitle the District to terminate this Construction Services Agreement for breach, pursuant to the provisions of Section 11.
- B. Notwithstanding the foregoing provisions of Section 12.A., above, if the Construction Manager proves not to be satisfactory to the District, upon written notice from the District to the Contractor such person shall be promptly replaced by a person who is acceptable to the District in accordance with the following procedures:
 - 1. Within five (5) business days after receipt of a notice from the District requesting the replacement of the Construction Manager or promptly following the discovery by Contractor that the Construction Manager is leaving the employ of Contractor, as the case may be, Contractor shall provide the District with the name of an acceptable replacement/substitution (together with such person's resume and other information regarding such person's experience and qualifications). The replacement/substitution shall commence work on the Project no later than five (5) business days following the District's approval of such replacement, which approval shall not be unreasonably withheld. In the event that the District and Contractor cannot agree as to the substitution of replacement Construction Manager, the District shall be entitled to terminate this Construction Services Agreement for breach, pursuant to the provisions of Section 11.

SECTION 13. **MAINTENANCE OF RECORDS; AUDIT**

- A. Contractor, and any subcontractors, shall keep or cause to be kept true and complete books, records, and accounts of all financial transactions in the course of its activities and operations related to the Project. These documents may include sales slips, invoices, payrolls, personnel records, requests for

subcontractor payment, and other data relating to all matters covered by the Contract Documents. At all times during the construction of the Project, and for four (4) years following the termination of the term of the last Document, Contractor, and any subcontractors, shall retain such data and records. During construction of the Project, Contractor shall make available all requested data and records at reasonable locations within the County of Imperial, at any time during normal business hours, and as often as the District deems necessary. If records are not made available within the County of Imperial during the construction of the Project, Contractor shall pay the District's travel costs to the location where the records are maintained. Upon completion of the construction of the Project, and when requested in writing by the District, Contractor shall provide the District with one (1) complete copy of all books, records and accounts of all financial transactions in the course of its activities and operations related to the Project, including but not limited to sales slips, invoices, payrolls, personnel records, requests for subcontractor payment and other data relating to all matters covered by the Contract Documents. Failure to make requested records available for audit by the date requested will result in immediate termination of this Construction Services Agreement.

- B. At its own cost, the District shall have the right to review and audit, upon reasonable notice, the books and records of Contractor concerning any monies associated with the Project. This right does not extend to books and records that do not, in any way, relate to or concern the accounting of monies associated with the Project. Any such audit shall be performed by an independent auditor, having no direct or indirect relationship with the functions or activities being audited or with the business conducted by Contractor or the District. In the event the independent auditor determines that savings realized during the prosecution and progress of the Project were not added to the contingency portion of the GMP, as provided for in Section 6 of this Construction Services Agreement, the District shall be entitled to deduct such amount of such savings from the next Tenant Improvement Payment due or Lease Prepayments, as applicable, under the provisions of the Facility Lease between the District and Contractor. If Contractor disputes the findings of the independent auditor, such dispute shall be handled in accordance with the provisions of Section 35 of this Construction Services Agreement.

SECTION 14. **LABOR COMPLIANCE PROGRAM**

- A. Contractor acknowledges that construction beginning on or after April 1, 2003, shall comply with the laws and regulations governing Assembly Bill No. 1506 ("AB 1506") and Labor Code Section 1771.7, which requires the District to implement a labor compliance plan and requires Contractor, and any subcontractors, to comply with the District's labor compliance plan. Section 1771.7 does not apply to the design and preconstruction services performed during Phase 1, including, but not limited to, inspection and land surveying work. Contractor agrees to comply with the District's labor compliance plans, procedures, and rules at no additional cost to the District. Failure to comply with the District's labor compliance plan shall result in the withholding of contract payments by the District. Contractor expressly acknowledges these provisions and agrees to comply with the provisions of the District's labor compliance plan.
- B. Contractor shall include provision (A) in this Section in all subcontracts and require subcontractors to comply with these provisions at no additional cost to the District.

SECTION 15. **PREVAILING RATES OF WAGES**

- A. Contractor is aware of the requirements of California Labor Code Sections 1720 *et seq.* and 1770 *et seq.*, as well as California Code of Regulations, Title 8, section 16000 *et seq.* ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. Since this Construction Services Agreement involves an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and since the total compensation is \$1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. The District shall provide Contractor with a copy of the prevailing rates of per diem wages in effect at the commencement of this Construction Services Agreement. Contractor shall make copies of the prevailing rates of per diem wages for

each craft, classification or type of worker needed to perform work on the Project available to interested parties upon request, and shall post copies at Contractor's principal place of business and at the Project Site. Contractor shall defend, indemnify and hold the District, its elected officials, officers, employees and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. When determining GMP, Contractor shall include to the extent possible anticipated general prevailing wage rates for the time when work on the Project will actually be performed.

- B. Contractor and each subcontractor shall forfeit as a penalty to the District not more than fifty dollars (\$50) for each calendar day, or portion thereof, for each worker paid less than the stipulated prevailing rate for any work done by him, or by any subcontract under him, in violation of the provisions of the California Labor Code. The difference between such stipulated prevailing wage rate and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the stipulated prevailing wage rate shall be paid to each worker by Contractor.
- C. As a further material part of this Construction Management Agreement, Consultant agrees to hold harmless and indemnify the District, its Board and each member of the Board, its officers, employees and agents from any and all claims, liability, loss, costs, damages, expenses, fines and penalties, of whatever kind or nature, including all costs of defense and attorneys' fees, arising from any alleged failure of Contractor or its subcontractors to comply with the prevailing wage laws of the State of California. If the District or any of the indemnified parties are named as a party in any dispute arising from the failure of Contractor or its subcontractors to pay prevailing wages, Contractor agrees that the District and the other indemnified parties may appoint their own independent counsel, and Contractor agrees to pay all attorneys' fees and defense costs of the District and the other indemnified parties as billed, in addition to all other damages, fines, penalties and losses incurred by the District and the other indemnified parties as a result of the action.

SECTION 16. **DEBARMENT OF CONTRACTORS AND SUBCONTRACTORS**

Contractor or any subcontractor working under Contractor may not perform work on a public works project with a subcontractor who is ineligible to perform work on a public project pursuant to Section 1777.1 or Section 1777.7 of the California Labor Code. Any contract on a public works project entered into between Contractor and a debarred subcontractor is void as a matter of law. A debarred subcontractor may not receive any public money for performing work as a subcontractor on a public works contract. Any public money that is paid, or may have been paid to a debarred subcontractor by Contractor on the project shall be returned to the District. Contractor shall be responsible for the payment of wages to workers of a debarred subcontractor who has been allowed to work on the project.

SECTION 17. **EMPLOYMENT OF APPRENTICES**

- A. Contractor's attention is directed to the provisions of Sections 1777.5, 1777.6, and 1777.7 of the California Labor Code concerning employment of apprentices by Contractor or any subcontractor under him.
- B. Information relative to apprenticeship standards, wage schedules, and other requirements may be obtained from the Director of Industrial Relations, ex officio the Administrator of Apprenticeship, San Francisco, California, or from the Division of Apprenticeship Standards and its branch offices.
- C. Knowing violations of Section 1777.5 will result in forfeiture not to exceed \$100 for each calendar day of non-compliance pursuant to Section 1777.7.
- D. Pursuant to Education Code Section 17407.5, Contractor agrees that it and all of its subcontractors at every tier will use a skilled and trained workforce to perform all work on the Project that falls

within an apprenticeable occupation in the building and construction trades, in accordance with Chapter 2.9 (commencing with Section 2600) of Part 1 of Division 2 of the Public Contract Code.

SECTION 18. **HOURS OF WORK**

- A. Eight (8) hours of work shall constitute a legal day's work. Contractor and each subcontractor shall forfeit, as penalty to the District, twenty-five dollars (\$25) for each worker employed in the execution of work on the Project by Contractor or any subcontractor under him for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any calendar week in violation of the provisions of the Labor Code, and in particular, Section 1810 to Section 1815, thereof, inclusive, except that work performed by employees of Contractor and his subcontractors in excess of eight hours per day at not less than one and one-half times the basic rate of pay, as provided in Labor Code section 1815.
- B. Generally, construction work on the Project shall be accomplished on a regularly scheduled eight (8) hour per day work shift basis, Monday through Friday, between the hours of 7:00 a.m. and 5:00 p.m., however nothing herein shall prevent Contractor from working weekends and after school hours in order to complete the Project so long as not otherwise prohibited by law or local ordinances or regulations.
- C. Any work necessary to be performed after regular working hours, or on Sundays or other holidays shall be performed and included within the GMP, unless otherwise agreed to in writing before the work in question is commenced pursuant to Section 9, Extra Work/Modifications.

SECTION 19. **PAYROLL RECORDS**

- A. Pursuant to Labor Code section 1776, as amended from time to time, Contractor and each subcontractor shall keep records showing the name, address, social security number, work classification, straight time and overtime hours paid each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker or other employee employed by him or her in connection with the work.
- B. The payroll records enumerated under Section 19.A. above shall be certified and shall be available for inspection at all reasonable hours at the principal office of Contractor on the following basis:
 - 1. A certified copy of the employee's payroll records shall be made available for inspection or furnished to such employee or his or her authorized representative on request.
 - 2. A certified copy of all payroll records enumerated in Section 19.A. shall be made available for inspection or furnished upon request to the District, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standards of the Department of Industrial Relations.
 - 3. A certified copy of all payroll records enumerated in Section 19.A. shall be made available upon request to the public for inspection or copies thereof made; provided, however, that if request by the public shall be made through either the District, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement, if as requested, payroll records have been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the cost of preparation by Contractor, subcontractors and the entity through which the request was made. The public shall not be given access to such records at the principal office of Contractor.
- C. The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the Division.
